

## **Process Guide Input -Saturday, May 31, 2014**

There was a continuation of the movement of the Spirit from yesterday. We experienced a deep sense of our graced history as we saw how the Spirit has moved over a number of years.

There are clear signs that the Spiritual Exercises are a cherished core identity within the community.

Continuing the discerned process we moved to greater spiritual freedom. This was manifest in our respectful and caring listening to one another and also in our flexibility to change.

The experience of consolation expanding outward to global needs was evident.

There was joy.

I can feel the Holy Spirit is within us. His flow is just like a tide, sometimes it hits us very strongly and sometimes it seeps gently into our heart. We experienced the flash and enlightenment of the Holy Spirit after listening to the frontier talks. Dreams enter into our mind and there were fire was in our eyes. During the small group discussion, the consolation of the Holy Spirit became soft and gentle, yet the light and fire continued.

You are mystery, because we dwell together. Do not be afraid of this relationship- relish it- cherish it-live it. You see that I have been directing you in your common mission up until now.

If you continue to respond to the call and to each other expect more fruitfulness in ecology, family and poverty issues.

You will give birth.

There is power, graced energy in your dreams. Rely on it.

If you lose energy return to me, to the fire, to the passion.

You are a prophetic people, show it. You are rich, you are gifted, you are yeast, you are CLC- show your identity. Live in spiritual freedom.

You are my beloved, respond to my love.
